Reagan saw all the horrors of being cooped up for weeks and decided that he would fly. He did so and shrewdly avoided his home at Plainfield. Instead, he went to Cincinnati, conjecturing that the authorities would, of course, take it for granted that he had gone to his home. He was right about this, for a telegram was received at Plainfield one day addressed to the "chief of police." The city marshal got the telegram and showed it to Reagan's folks. They could hardly understand the situation and were much in the dark until a few days later when Reagan turned up and explained.

Of course there was consternation in the family. Something had to be done with the wanderer and at length it was had recently been erected on the place as a residence for a colored family. WASHINGTON, Jan. 31 .- The export rec-

the value showed a decrease of about \$400,-

In various other manufactures of iron and steel the reduction in value was proportionately greater than the reduction in quantity, but there were material reductions in quantity in certain articles. Bars or rods of steel fell in exportations from 106,000,000 pounds to 79,000,000/pounds; steel rails, from 356.245 tons to 318,055 tons; wire nails, from | it.' 61,385,843 pounds to 42,050,602 pounds, and steel sheets, from 101,995,225 pounds to 53,-588,154 pounds.
